OPERATING INSTRUCTIONS

BATTERY INSTALLATION/REPLACEMENT

1. Remove battery compartment cover from back of trimmer by sliding it down.
 2. Insert one AA alkaline battery into trimmer as shown.
 3. Replace battery compartment cover to its original position.
- NOTE: To maximize battery life, trimmer should be shut "OFF" immediately after each use.

CLEANING YOUR TRIMMER

Clean after each use. Turn the trimmer "OFF" and slide the cleaning brush down and out of its groove in the trimmer body. Brush hairs from the cutting head. DO NOT wash or rinse any part of the trimmer with water.

Apply a drop or two of oil to the blade and turn the trimmer "ON" for one or two seconds to evenly distribute the oil. DO NOT over oil. Always replace the protective blade cover before storing the trimmer.

BEFORE TRIMMING

Remove the protective blade cover and turn the trimmer "ON". You're now ready to trim. Guide the blades slowly to the area to be trimmed.

BE CREATIVE

Your Wahl trimmer is designed to allow you to edge, trim, shape, and create lines and designs. Be creative, but work slowly. DO NOT force the trimmer through the hair. Let trimmer do the work.

To create lines, hold the trimmer as shown and trim gently. For wider lines, start at the top and pull downward. For straight lines, use a ruler or other straight edge as a guide.
